Dear Professor Somers,

I detected some errors in the paper I sent you on "Wage Policy and Devaluation" (annex d) of my last letter). Please, find enclosed a corrected page 19. All the ~~it~~'s on this page as well ^{as} on page 20 should be read as **I**'s. Further corrections are the following:

- p. 6: a π added in the last sentence above the footnote 1. The sentence then will read: "; the third term as a whole as π_o .
- p.10: figures at the bottom of the page for η " should all have minus signs.

Yours very sincerely,
