Dear Professor Saraceno,

Thank you very much for yours of September the 29th. There was a misunderstanding with the telephonic communication of your 2nd telegram which induced me to change the dates of my visit. It now appears to me that this was not necessary and hence I am sticking to my original proposal, namely to arrive on the 14th and to leave on the 16th of October.

I got the English report and I am looking forward to your round-table discussion.

Yours very sincerely,
