Dear Professor Saraceno,

I was sorry to learn that your health prevented you from attending the meeting of our committee. I had hoped to meet you in particular also because I did not yet answer your kind letter about the conference at Naples. Actually I got your telegram in which the postponement of the conference was announced, but not the letter that was announced in that telegram. I hope it did not get lost !

With my best wishes for your recovery  
and hoping to hear from you, I am,

yours very sincerely,
