Gentlemen,

Thank you for sending me a copy of Prof. Arrow's Monograph nr 12 in the Cowles Commission Series. I have admired the careful formulation of the argument, and my impression is that it is a valuable contribution to science. Although in this stage it cannot yet be a constructive solution of the problems of social choice, no doubt, advanced students as well as my colleagues in the Netherlands School of Economics will find the book of great value to their forming an opinion on these important problems.

Yours very sincerely,
