65
Mrs Dorothy Richardson,
Hillside,
Kilmun,
Argyll, Scotland

Dear Mrs Richardson,

Thank you very much for your letters of November 13 and January 24, as well as for the papers you sent me meanwhile. Since I was until the middle of December lecturing at a college founded by Quakers (Haverford College, Haverford Pa) there was particular interest for the fact that Dr Richardson appears to have been himself a Quaker. This is why I suggest that some of his papers, if still available, be sent to Haverford College. I shall be delighted to mention to you any further persons I might meet who are interested in Dr Richardson's work. Personally I am very grateful to have his latest article of November 1953.

Yours very sincerely,
