Dear Hammarskjöld,

It was a great pleasure to read that you have been nominated in such an extremely important position. Please, do not only accept my best congratulations but also my wishes that it will be possible to do fruitful work at this place which may be of such a strategic importance to the happiness of mankind. I am sure that as far as it will depend on your personal intellectual and diplomatic gifts very good results may be obtained. It is also to be hoped that you will find time sometimes to think over quietly some of your main problems.

Yours very sincerely,
