

CENTRAAL PLANBUREAU

No 128 D/T/Vos

Mr K. Nagabhushanam  
Institute of Mathematical  
Statistics

Norrtull Gatan 16,  
Stockholm 13 Mei 1950

It will be a great pleasure for me to meet you sometime in August. It is very probable that I shall be available in the last week, but I am not absolutely certain of it. I am sure, however that some of my collaborators would be very glad, in case of my absence, to show you something about the work done here in the Central Planning Bureau, and in the Netherlands Economic Institute. Don't expect, however that we are very much specialized on general mathematical-statistical problems. Our work is more concentrated on practical applications in the field of market analyses, etc.

Not only in the last week of August but at any time there will be some people of my Bureau ( may be myself) who are available. I think you should not base the dates of your visit upon my probable presence, since I said I am ~~xxxx~~ not sure whether I am on leave.

Yours very sincerely,
