Professor Holland Hunter,
Haverford College,
Haverford Pa.,
USA

Dear Ho,

Thank you very much for your letter of April 2. It was a great pleasure to have it and to be reminded of our contact last autumn. I really can't say that I remember Haverford as a sleepy place! I was impressed by the many international contacts many of you had and the active part in international relief and research taken by them. Recently we saw the Teafs rather frequently and in a few days they will leave us. Howard Teaf was a very active member of our faculty and gave us very useful suggestions for our institute which is still in its infancy, and he will no doubt have to tell you of many shortcomings in our organization and in our contacts with the students. In Rotterdam we had also a visiting Professor, Lowell Harriss from Columbia, who was also highly appreciated by our students and our colleagues.

I had a chance about a month ago to meet one of the economic advisers of the President, Mr Jacoby, who informed us in Paris about the policies so far followed to counteract the depression and prospects as he saw them. I must say that we feel somewhat reassured; of course we are still eagerly following further developments.

All of us are feeling well and I am uncertain about our future plans since we do not hear from India. But there will be a visit of Prof. Mahalanobis within a few weeks and that may clarify matters.

With kindest regards for all of you and from
all of us,

Dear Ho,

Thank you very much for your letter of April 2. It was a great pleasure to have it and to be reminded of our contact last autumn. I really can't say that I remember Haverford as a sleepy place! I was impressed by the many international contacts many of you had and the active part in international relief and research taken by them. Recently we saw the Tests rather frequently and in a few days they will leave us. Howard Test was a very active member of our faculty and gave us very useful suggestions for our institute which is still in its infancy, and he will no doubt have to tell you of many shortcomings in our organization and in our contacts with the students. In Rotterdam we had also a visiting Professor, Lowell Harries from Columbia, who was also highly appreciated by our students and our colleagues.

I had a chance about a month ago to meet one of the economic advisers of the President, Mr. Jacoby, who informed us in Paris about the policies so far followed to counteract the depression and prospects as he saw them. I must say that we feel somewhat reassured; of course we are still eagerly following further developments.

All of us are feeling well and I am uncertain about our future plans since we do not hear from India. But there will be a visit of Prof. Mahalanobis within a few weeks and that may clarify matters.

With kindest regards for all of you and from
all of us,
