Dear Dr. Pant,

I remember with pleasure our discussions in Calcutta. Today I have been able to send you by seamail a number of documents about health, education, social insurance and related subjects. I am continuing my endeavour to supply you with other material. I am sorry my answer is delayed, but I had obligations in Belgium and Italy and am only now finding time to deal with the requests that have been made to me.

With kindest regards,

J. TIMBERGEN
