Pembroke College,
Oxford

Dear Colleagues and Friends,

I am very sorry that at the last moment I have to decide not to attend the meeting of the I.E.A. After two months of a crisis the new cabinet has been finally formed and I shall probably have to advise the government on some urgent points of economic policy. I had made already all preparations and looked forward to see you and many other colleagues. Please, let me have the introductory speeches not yet distributed and excuse me to the participants of the round table. Having read most of the papers so far distributed I am sure it will be a great success.

With best personal regards,

Yours ever,
