Dear Mr Bell,

Thank you very much for yours of September 8 and the addresses. I shall be glad to try and organize some small parties to meet the members of the conference living in the Hague. In fact, we intended to do so when leaving Clarens. Thank you also for the photograph which is a very nice souvenir. All of us agree that we liked the conference very much and especially its organizers who did such a wonderful job. You will hear in the next few months about the initiatives to be taken by the Netherlands Economic Institute which are somewhat inspired by our discussion.

Yours very sincerely,
