Dear Dr. Ghosh,

I am afraid I did not give any comments on your letter of 20 May 1953. My difficulty is that your approach is purely statistical, but hardly economic. It was not quite clear for me therefore. What the economic problem is, in which you are interested and to which your thesis makes a contribution, may be that you have described this economic problem elsewhere. If so I shall be glad to comment upon it. Since I suppose that the copy of your thesis you sent to me is your own copy I return it under separate cover.

Yours very sincerely,

(J. Tinbergen)
