To whom it may concern !

I herewith declare that Mr M. van den BERG from South-Africa, The University of Stellenbosch, is preparing under my guidance a dissertation on the subject "The Influence of Research on Economic Policy". Mr van den Berg has shown a very good understanding for his subject and has worked with great intelligence and activity. So far his work has mainly been based on research and policy in the Netherlands; it is his intention to compare his findings with developments in the United Kingdom. I hope it will be possible for you to assist him in collecting material about this subject as far as the United Kingdom is concerned.
