

Per briefkaart

29 April 1950

Dear Prof. Fossati,

The meeting of the International Economic Association will be held from September the 10th till September the 13th at Monaco. About the program I am not able to tell you anything but you might ask Prof. E.A.G. Robinson, The Marshall Library, Downing Street, Cambridge Engl.

The meeting we are arranging in the Netherlands has not been fixed as to date, and will only be accessible to a small group of people actively engaged in "input-output" analysis. The experiences with these analysis as well as a number of problems will be discussed by econometrists from the United States, Norway, England, the Netherlands and France. Would you know of any Italian econometrists who are working in this field? The place of the meeting presumably will be Driebergen, Dr Eykmanhuis.

The publisher of my new book, which is ^{only} a translation ~~only~~ of my book "Economische Bewegingsleer", is The University of Chicago Press. The title of the book is "The Dynamics of Business Cycles".

I did not yet receive your essay but ~~am~~ looking forward to read it.

Yours very sincerely

Dear Prof. Fossati,

The meeting of the International Economic Association will be held from September the 10th till September the 13th at Monaco. About the program I am not able to tell you anything but you might ask Prof. E.A.G. Robinson, The Marshall Library, Downing Street, Cambridge, Engl.

The meeting we are arranging in the Netherlands has not been fixed as to date, and will only be accessible to a small group of people actively engaged in "input-output" analysis. The experiences with these analysis as well as a number of problems will be discussed by economists from the United States, Norway, England, the Netherlands and France. Would you know of any Italian economist who are working in this field? The place of the meeting presumably will be determined. Dr. Lyman.

The publisher of my new book, which is a translation of my book "Economic Development", is the University of Chicago Press. The title of the book is "The Dynamics of Business Cycles".

I did not yet receive your essay but am looking forward to read it.

Yours very sincerely
