Dear Miss Østraat,

Please, find under separate cover the graphs of my paper on long term elasticities. I don't know whether you intend to have them multiplied. It does not quite seem necessary to me. If you do not multiply them, can I get them back from you at one of my lectures in order to demonstrate them?

May I thank you very heartily for the railway tickets and all the trouble you gave yourself about them?

Yours very sincerely,

(J. Tinbergen)

Dear Miss Gattner,

Please, find under separate
cover the copies of my paper on leaf-fern
classification. I don't know whether you prefer
to have them multiplied. It does not make
any necessary to me. If you do not multiply
them, can I get them back from you at one
of my lectures in order to demonstrate them?

May I thank you very much
for the railway tickets and all the
trouble you have yourself about them?

Yours very sincerely,
