

February 5th, 1951

Massachusetts Institute of
Technology,
c/o Director of Administration
CAMBRIDGE 39, Mass.

I herewith warmly recommend Mr J.L. Enos for admission at your university as well as for a fellowship. Mr Enos has shown to be a thorough scholar on econometrics with a keen interest and a good understanding of the problems he investigated.

He was mainly engaged in econometric research with regard to investment activity at the Netherlands Central Planning Bureau, which, as an American citizen, he visited during this academic year.

(J. Tinbergen)
Professor of Econometrics
at the
Rotterdam School of Economics
