Dear Tintner,

I asked my wife for advice. It was her feeling that for a seven years old boy the difficulties of adaptation would not be very great. It therefore would mainly depend on Mrs Tintner's feelings. As far as we know Vienna we imagine that she might like it very much. We at least are fond of Austria. But, of course, the responsibility for the change can only be taken by yourself.

With best personal regards,

yours very sincerely,

J. TINTER
