Dear Fossati,

Thank you for your card and your letter. Of course you will be very welcome in the Hague some time in August; unfortunately however, I shall not be available from August 8-15. I think I shall be able to be at the Hague after August 15 and I shall try to stick to this plan, but I can't promise it without any reserve. But, please, base your plan on the hypothesis that I shall be there. This is the most probable situation.

I shall be glad to write for *Metroeconomica* if I have a subject; you may be sure that I do not forget our review. I do not think, however, that I got the 1953 copies and I would be grateful for your testing with the publisher whether <sup>they</sup> dispatched the 1953 issues to my address.

With best personal regards,
