Cambridge.

Dear Mrs Robinson,

Thank you very much for your letter of December 11.
I am glad you agree on the acceleration principle.

Thank you very much also for your off-print on Harrod;
I read the article upon its appearance and found it considerably clearer
than Harrod's book. It much increased my appreciation for the book.

I shall be glad to get your Long-Period paper when it
is ready.

Yours very sincerely,
