I herewith declare that Mr J. Hoogerwerf passed his first two examinations, of which the latter is comparable with a Bachelor degree, with the Netherlands School of Economics at Rotterdam. His marks were satisfactory to good. Since closer individual contacts with the professors usually start after this second examination, I am unfortunately not able to add a personal judgement on Mr Hoogerwerf's capacities. I should appreciate, however, your considering him as a serious candidate for a fellowship with your university.
