Professor Ragnar Frisch,

My dear Frisch,

Thank you for your letter of July 22. I am very sorry that I am unable to come since quite recently a demand has been made for a wage increase and I am supposed to deliver advice at very short notice on this matter. I think the combination of my official duties with some scientific activities is becoming a little tiresome and I am planning to finish this combination within the next year or so. My backlog in many subjects is accumulating and I do want to understand a little bit more of the interesting new things that are produced by my more active colleagues !

I am sure that the decisions of the council members present at Uppsala will be very wise.

Wit best regards as ever,

yours very sincerely,

21 July 1934

Professor Ragnar Frisch,

My dear Frisch,

Thank you for your letter of July 22. I am very sorry that I am unable to come since quite recently a demand has been made for a wage increase and I am supposed to deliver advice at very short notice on this matter. I think the combination of my official duties with some scientific activities is becoming a little tiresome and I am planning to finish this combination within the next year or so. My backlog in many subjects is accumulating and I do want to understand a little bit more of the interesting new things that are produced by my more active colleagues!

I am sure that the decisions of the council members present at Uppsala will be very wise.

With best regards as ever,

Yours very sincerely,
