NEW YORK.

Dear Mr Taupin,

On request of mr Seton, who is applying for a function with the Department of Economic Affairs, I have pleasure to inform you that mr Seton was one of our best students of these last years. He is both very intelligent and an honest and objective research worker. He may be from time to time somewhat unsociable, which may make him less appropriate for a negotiator or a diplomat, but he certainly is very appropriate for independent research work.

Yours very sincerely,
