Trg. Republike 5/IV,
Belgrade, Joegoslavië

Dear Mr. Arsjad,

Thank you for yours of November 15 and annexes. I informed the Ministry of Foreign Affairs (International Technical Assistance Department) about the approvals. I understand that they will take action with regard to your stipend.

As for me, I can start working with you around January 3, 1968. It may be useful for you to be reminded of the fact that your admittance does not imply a guarantee that you will obtain the doctor's degree. That, evidently, depends on the quality of the work you will perform. But it will always be possible for you to obtain a certificate stating that you have participated in the research work going on here.

I hope to see you in the first days of January then.

Yours sincerely,

J. Tinbergen.
